INDEX

Foreword

At NOËL & MARQUET, we believe that every showroom visit should feel like stepping into a world of inspiration and design excellence. We are deeply committed to supporting our partners with innovative products and captivating campaigns that attract consumers to your showroom.

But the journey doesn't end at the entrance - this is where it truly begins. Once your customers walk through the door, they should be immersed in an atmosphere that reflects the elegance, creativity, and premium quality of our brand.

This brochure is designed to help you bring the NOËL & MARQUET universe to life within your showroom. Our goal is to support you in creating a visually impactful, cohesive, and emotionally resonant experience - one that not only showcases our collections, but also tells a compelling story of design transformation.

Explore our Brand Guidelines on the Extranet (media.nmc.eu) to effectively present our brand across all your media, including logos, colors, fonts, and social media.

1. Clear Brand Presence

Immediate recognition is key. The NOËL & MARQUET logo should be prominently displayed, ensuring customers instantly identify the presence of our brand in your space. **Available Tools:** Branded signage, stickers, and visual elements.

For guidance on the full range and how to place an order, please consult the **POS & Marketing Material brochure** available on the Extranet (media.nmc.eu) or contact your **Key Account Manager**.

To maintain consistency, we kindly ask you to **replace any outdated branding elements**, including:

- Previous catalogues
- Outdated displays
- Old sample collections
- Stickers with former logo
- Etc.

2. Inspiring Product Displays

Our collection of over **15 POS solutions**, available in various sizes and formats, is designed to elegantly **adapt to your showroom** layout while placing our products center stage. These displays blend form and function to create a memorable and immersive shopping experience.

3. Sample Boxes & Print Material

Tactility is essential in the world of interior design. Our **sample boxes and collection** (see picture above) allow customers to experience the texture, weight, and finesse of our products firsthand. Coupled with beautifully curated **brochures and catalogues**, these materials become a source of both **information and inspiration**.

4. Feature Walls - Where Design Comes to Life

The beauty of NOËL & MARQUET truly reveals itself when our products are brought to life on the wall, installed, painted and integrated into a space. Our designs elevate interiors with architectural character, depth and refined elegance.

Within this catalogue, you will discover a curated **selection of inspirational wall compositions**, each based on a **standard format of ± 250 cm height by ± 120 cm width**. These installations are conceived to showcase the versatility and creative potential of our collections. Your Key Account Manager will guide you through the customization process to ensure a perfect integration into your space.

TO GET STARTED, PLEASE PROVIDE THE FOLLOWING INFORMATION:

- Photos of your showroom
- Dimensions of the area dedicated to NOËL & MARQUET
- Availability of electrical connections
- Any specific deadlines to consider

TECHNICAL NOTES:

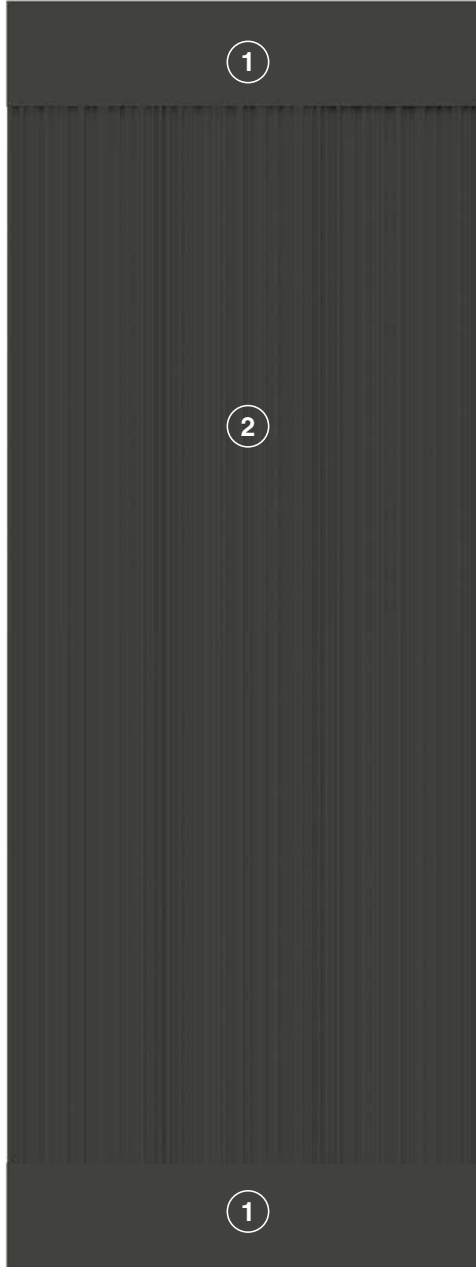

- LED lighting should range between 2700K and 3000K.
- Spacing between frames and from the edges of the wall (corners, skirtings, cornices) should range between 10 cm and 20 cm.
- If using panels in combination, ensure proper preparation with the following profiles: IL12 indirect lighting profile, WL10 finishing profile or FL15 finishing profile.
